The book consists of two parts with topics dedicated to the drying/roasting aspects of cocoa and coffee, respectively. Features Provides a comprehensive review on flavor development during cocoa/coffee processing Discusses the impact of processing parameters on cocoa/coffee quality Presents the new trends in drying/roasting techniques and novel technology Examines the concept of coffee quality in light of both paradigms: the traditional coffee and the specialty coffee grading systems No prior knowledge of cocoa and coffee processing is required to benefit from this book, which is written for a variety of readers. Stereochemical Aspects of Drug Action and Disposition Michel F. Eichelbaum,Bernard Testa,Andrew Somogyi,2012-12-06 This book aims to guide and inspire drug researchers as they enter the 21st century. The third section focuses on drug disposition, with chapters on absorption, distribution, protein binding, metabolism and elimination. The final section is dedicated to regulatory and clinical aspects.

Education Through the Arts for Well-Being and Community Catherine Burke,Peter Cunningham,Lottie Hoare,2022-08 Education through the Arts for Well-Being and Community examines Sir Alec Clegg's distinctive contribution to education reform. Revisiting the significance of Clegg's principles for education in the 21st century, the book investigates the impact of his innovative approach to education and his advocacy of an arts-based curriculum to promote physical and mental health. The book explores a variety of perspectives on Clegg's working relationships, career and achievements. Sir David Attenborough's foreword remembers his uncle Alec as a lively young teacher, and Sir Tim Brighouse considers Clegg as a model for his own leadership in educational reform. Eight authors in all bring a range of academic and professional insights to this study of an exceptional educationalist. Clegg's national influence as Chief Education Officer in Yorkshire and his impact on schools, teacher education and wider communities through an integrated approach to the arts are richly illustrated in text and pictures. Two aspects of his work have particular topical relevance: Clegg's emphatic concern for 'children in distress'; and his encouragement of creativity through teacher education. This book will be of great interest for academics, scholars and students in the field of the history of education, educational policy and reform, and all concerned with the role of schools in young people's development.
